

WAZEE CRANE

OVERHEAD LIFTING SOLUTIONS BY TIMKEN

CRANE SERVICES

The Wazee Crane service department provides on-site service and diagnostics, and offers an extensive predictive maintenance program to ensure your material handling equipment is functioning at its best.

Inspections

Our Service Technicians can visit your site and utilize proprietary state-of-the-art inspection software to provide you with an instant, customized report. Our full inspection includes an evaluation and documentation of equipment condition, safety compliance and general operational testing.

Load Tests

Wazee Crane has 500,000lbs of test weights available. Our test weights are designed to eliminate the dangers of water bag testing and carry a PE stamp of design approval.

Did You Know?

Inspections are required by OSHA on all overhead bridge cranes and hoists? Contact your crane service experts at Wazee to find out how your business can prevent downtime, save money, increase safety and maintain OSHA compliance. Wazee Crane Technicians are OSHA and MSHA certified.

Wazee Crane is now a Timken Brand
